

<b>Module Title:</b>	Work Placement Brewing and Distilling
<b>Language of Instruction:</b>	English
<b>Credits:</b>	20
<b>NFQ Level:</b>	7
<b>Module Delivered In</b>	No Programmes
<b>Teaching &amp; Learning Strategies:</b>	Spanning a period of not less than 16 weeks, the learner will gain relevant experience in a variety of aspects of a brewing and/or distilling industry. A wide range of scientific, engineering and business skills and techniques, procedures and processes will be experienced, developed and applied during the placement. In advance of the placement learners will undertake 5 hours of work placement preparation classes. Transferable life skills including team working, communication, time management and self-reflection will also be enhanced and learners will record and review their experience via a work place journal which will form part of their final work placement report. This report will be validated by the on-site work placement mentor who will also work with the learner to ensure that skills and experiences are being obtained. The work placement mentor will receive a guide to work placement in advance detailing their responsibilities as well as those of the learner and of IT Carlow and will liaise with the work placement co-ordinator both in preparation for and during the work placement period. Learners will communicate their experience to their peers in an oral presentation on completion of the work placement. Where a work placement cannot be facilitated an industry focused research project will be carried out by the learner.
<b>Module Aim:</b>	To provide the student with an opportunity, within a structured setting, to gain experience of the work environment in the brewing and/or distilling sector
<b>Learning Outcomes</b>	
<i>On successful completion of this module the learner should be able to:</i>	
LO1	Describe and discuss the host organisations and appraise and evaluate the organisation's contribution to the industrial and commercial environment in which it operates.
LO2	Work in individual and team based scenarios in a dynamic work environment
LO3	Apply, develop and integrate skill sets studied in academic programme
LO4	Evaluate the various skills acquired in the work placement programme
LO5	Apply and critically evaluate health and safety assessments in a commercial setting
LO6	Develop the skills and confidence to choose and acquire suitable employment
<b>Pre-requisite learning</b>	
<b>Module Recommendations</b> <i>This is prior learning (or a practical skill) that is recommended before enrolment in this module.</i>	
No recommendations listed	
<b>Incompatible Modules</b> <i>These are modules which have learning outcomes that are too similar to the learning outcomes of this module.</i>	
No incompatible modules listed	
<b>Co-requisite Modules</b>	
No Co-requisite modules listed	
<b>Requirements</b> <i>This is prior learning (or a practical skill) that is mandatory before enrolment in this module is allowed.</i>	
No requirements listed
