

<b>Module Title:</b>	Industrial Compliance, Safety and Law
<b>Language of Instruction:</b>	English
<b>Credits:</b>	5
<b>NFQ Level:</b>	8
<b>Module Delivered In</b>	<a href="#">2 programme(s)</a>
<b>Module Aim:</b>	To give students an understanding of compliance, safety, and law with respect to industrial settings. To discuss the major components of key Irish health and safety legislation. To apply the concepts of hazard identification, risk assessment, and controls to work situations.
<b>Learning Outcomes</b>	
<i>On successful completion of this module the learner should be able to:</i>	
LO1	To recognise ergonomic, mechanical, chemical, and psychosocial hazards in the Irish workplace setting and make recommendations to mitigate the associated risks.
LO2	To explain the components of a safety management system and advise on the development of a safety management system for a low-risk business.
LO3	To understand the need and role of regulations and standards with industries.
LO4	Describe the responsibilities of the people at various levels of the organisation in regard to standards, regulation, compliance, and health and safety.
<b>Pre-requisite learning</b>	
<b>Module Recommendations</b> <i>This is prior learning (or a practical skill) that is recommended before enrolment in this module.</i>	
No recommendations listed	
<b>Incompatible Modules</b> <i>These are modules which have learning outcomes that are too similar to the learning outcomes of this module.</i>	
No incompatible modules listed	
<b>Co-requisite Modules</b>	
No Co-requisite modules listed	
<b>Requirements</b> <i>This is prior learning (or a practical skill) that is mandatory before enrolment in this module is allowed.</i>	
No requirements listed	

## Module Content & Assessment

### Indicative Content
