

Module Title:	Health Psychology and Promotion 1
Language of Instruction:	English
Credits:	5
NFQ Level:	6
Module Delivered In	2 programme(s)
Teaching & Learning Strategies:	This module will be delivered via two theory classes of one hour duration (each) per week along with two hours of tutorial/practical classes per week for 12 weeks. This may include lectures, Q&A, group discussion, active learning, tutorials, seminars, case studies and guest lectures where appropriate. Some laboratory based classes may also be included, where relevant. The students will also be involved in many of the Institute's Health Awareness Campaigns throughout the year, leading Institute Health Checks and initiating health promotion programmes.
Module Aim:	The aim of this module is to introduce students to theory, evidence and practice within the fields of health psychology and promotion.
Learning Outcomes	
<i>On successful completion of this module the learner should be able to:</i>	
LO1	Apply knowledge of the concepts and theories of health, illness and health promotion
LO2	Describe the determinants of health
LO3	Apply the theoretical and practical approaches to behaviour change in a range of contexts.
Pre-requisite learning	
Module Recommendations	
<i>This is prior learning (or a practical skill) that is recommended before enrolment in this module.</i>	
No recommendations listed	
Incompatible Modules	
<i>These are modules which have learning outcomes that are too similar to the learning outcomes of this module.</i>	
No incompatible modules listed	
Co-requisite Modules	
No Co-requisite modules listed	
Requirements	
<i>This is prior learning (or a practical skill) that is mandatory before enrolment in this module is allowed.</i>	
No requirements listed
