MGMT C1F02: AgriBusiness Management

Module Title:		AgriBusiness Management					
Language of Instruction:		English					
Credits:		10					
NFQ Leve	el:	6					
Module D	elivered In	2 programme(s)					
Teaching & Learning Strategies:		The main focus of the classes will be a lecture style combined with case analysis in reviewing management concepts. Learners will also engage in class/group discussions to deepen the understanding of the concept covered. Theory will be supplemented using guest speakers and video material where relevant. For the management accounting material the main focus of the classes will be the completion of practical exercises. These exercises will provide the learner with an understanding and an ability to complete relevant accounting scenarios. Learners will also be provided with relevant theory to support the practical work and deepen the understanding of the concepts covered.					
Module Aim:		The aims of this module is to provide learners with an introduction to enterprise and management and its application to agribusiness, to be able to prepare management accounting information for use in an agribusiness context and to provide learners with the capability of develop a basic agribusiness plan.
