

<b>Module Title:</b>	Post Production
<b>Language of Instruction:</b>	English
<b>Credits:</b>	5
<b>NFQ Level:</b>	8
<b>Module Delivered In</b>	<a href="#">1 programme(s)</a>
<b>Teaching &amp; Learning Strategies:</b>	A mix of tutorials, practical based labs and asynchronous learning will be used in teaching this module.
<b>Module Aim:</b>	To enhance students' practical post production skills. To provide students with experience using industry-standard software to a professional level.
<b>Learning Outcomes</b>	
<i>On successful completion of this module the learner should be able to:</i>	
LO1	Navigate & operate professional video editing software to a standard suitable for broadcast.
LO2	Demonstrate a solid understanding of the background functions and architecture of the editing software.
LO3	Exhibit more advanced editing skills in combining and customising effects, media management and exporting video files.
LO4	Exhibit a competence in the post production workflow from loading footage to final delivery.
<b>Pre-requisite learning</b>	
<b>Module Recommendations</b>	
<i>This is prior learning (or a practical skill) that is recommended before enrolment in this module.</i>	
No recommendations listed	
<b>Incompatible Modules</b>	
<i>These are modules which have learning outcomes that are too similar to the learning outcomes of this module.</i>	
No incompatible modules listed	
<b>Co-requisite Modules</b>	
No Co-requisite modules listed	
<b>Requirements</b>	
<i>This is prior learning (or a practical skill) that is mandatory before enrolment in this module is allowed.</i>	
No requirements listed	

**Module Content & Assessment**
**Indicative Content**
**Editing**

Professional editing techniques. Using advanced technical editing skills to produce creative, stylish video productions. The student should be able to recognise the workflow and technical methods behind professional techniques. They should be able to create customised styles, effects and transitions appropriate to their productions.
