

MEDI C1612: Introduction to Audio

Module Title	:		Introduction to Audio
Language o	f Instructio	on:	English
Credits:		5	
NFQ Level:		6	
Module Deli	vered In		2 programme(s)
Teaching & Strategies:	Learning		Students will conduct practicals with audio equipment and will also work in a computer laboratory. The students will undertake practical assignments based on creating narratives with sound for visual media genres.
Module Aim	:		This module is intended to provide students with the theoretical knowledge and understanding of the communicative power of music, voice and sound used in TV, Cinema & Games. All stages of audio will be covered to include planning, production and post-production. The aim of this module is to give students the basic ability and practical skills to support narrative content within video footage by producing sound design through sound recording and sound editing.
Learning Ou	itcomes		
On successfi	ul completio	on of tl	his module the learner should be able to:
LO1	Recogniz	e the r	narrative function of music and sound used in TV, Cinema & Games
LO2	Demonstr	ate the	ese narrative functions by producing sound design for video footage
LO3	Use Indus of visual r		andard Sound Recording hardware and Digital Audio software in producing an original music score for a piece
LO4	Choose a	pprop	riate audio hardware for specific productions.
Pre-requisit	e learning		
Module Rec This is prior l			ctical skill) that is recommended before enrolment in this module.
No recomme	ndations lis	ted	
Incompatibl These are m			re learning outcomes that are too similar to the learning outcomes of this module.
No incompat	ible module	es liste	d
Co-requisite	Modules		
No Co-requis	site module	s liste	d
Requiremen This is prior l		a prac	ctical skill) that is mandatory before enrolment in this module is allowed.
No requireme	ents listed
