## LANG: Programming Language Design

| Module Title:   |   | Programming Language Design   |  |  |  |
|---|---|---|--|--|--|
| Language of Instruction:  |   | English   |  |  |  |
| - ···   | 1-  |   |  |  |  |
| Credits:  | 5   |   |  |  |  |
| NFQ Level:  | 8   |   |  |  |  |
| Module Deli   | vered In  | 2 programme(s)  |  |  |  |
| Teaching & Learning Strategies:   |   | Learners will be expected to actively participate in class on the materials covered and through assigned projects throughout the year |  |  |  |
| Module Aim:   |   | To provide learners with a theoretical knowledge of, and practical skills of designing programming languages                          |  |  |  |
| Learning Ou   | itcomes   |   |  |  |  |
| On successfu  | ul completion of t  | his module the learner should be able to:   |  |  |  |
| LO1   | Understand the principles behind good programming language design |   |  |  |  |
| LO2   | Design appropriate Domain Specific Languages                      |   |  |  |  |
| LO3   | Understand the fundamentals of program language theory            |   |  |  |  |
| Pre-requisite   | e learning  |   |  |  |  |
|   | ommendations<br>earning (or a pra                                 | ctical skill) that is recommended before enrolment in this module.  |  |  |  |
| No recomme  | ndations listed   |   |  |  |  |
| Incompatible Modules These are modules which have learning outcomes that are too similar to the learning outcomes of this module. |   |   |  |  |  |
| No incompatible modules listed  |   |   |  |  |  |
| Co-requisite Modules  |   |   |  |  |  |
| No Co-requisite modules listed  |   |   |  |  |  |
| Requirements This is prior learning (or a practical skill) that is mandatory before enrolment in this module is allowed.          |   |   |  |  |  |

## LANG: Programming Language Design

# Module Content & Assessment

Implementation Issues Grammer; Tokens; Parsing; Boot-straping

| Indicative Content   |
|--|
| Paradigms Functional; Declarative; Constraint Logic; Imperative; Object Oriented; Concurrent; Hybrid |
| Typing Static and Dynamic; Strong and Weak; Type Inference   |
| Variables Scope; Parameter Passing; Mutability; Data Types; Memory Management                        |
| Execution Compilers; Interpreters; Virtual Machines; Portability                                     |
| Usability Syntax; Readability; Structure; Grammar  |

| Assessment Breakdown             | %      |
|----------------------------------|--------|
| Project                          | 50.00% |
| End of Module Formal Examination | 50.00% |

No Continuous Assessment

| Project            |  |                      |               |                    |
|--------------------|--|----------------------|---------------|--------------------|
| Assessment<br>Type | Assessment Description   | Outcome<br>addressed | % of<br>total | Assessment<br>Date |
| Project            | Produce an in-depth critique of an existing programming language         | 1                    | 25.00         | n/a                |
| Project            | Design a Domain Specific Language suitable for a specific problem domain | 2                    | 25.00         | n/a                |

No Practical

| End of Module Formal Examination |                        |                      |               |                 |
|----------------------------------|------------------------|----------------------|---------------|-----------------|
| Assessment Type                  | Assessment Description | Outcome<br>addressed | % of<br>total | Assessment Date |
| Formal Exam                      | n/a                    | 3                    | 50.00         | End-of-Semester |

SETU Carlow Campus reserves the right to alter the nature and timings of assessment

# Module Workload

| Workload: Full Time  |                       |                                       |
|----------------------|-----------------------|---------------------------------------|
| Workload Type        | Frequency             | Average Weekly<br>Learner<br>Workload |
| Lecture              | 12 Weeks<br>per Stage | 2.00                                  |
| Laboratory           | 12 Weeks<br>per Stage | 1.00                                  |
| Independent Learning | 15 Weeks<br>per Stage | 5.93                                  |
|                      | Total Hours           | 125.00                                |

### Module Delivered In

| Programme Code | Programme   | Semester | Delivery         |
|----------------|---|----------|------------------|
| CW_KCCGD_B     | Bachelor of Science (Honours) in Computer Games Development | 8        | Group Elective 1 |
| CW_KCSOF_B     | Bachelor of Science (Honours) in Software Development       | 8        | Group Elective 1 |
