

ZSCI C1102: Anatomy 1

Module Title	:		Anatomy 1	
Language o	of Instruction: English			
Т				
Credits:		5		
NFQ Level:		6		
Module Deli	vered in		2 programme(s)	
Teaching & Strategies:	ategies: material via Blackboard in advance of theory and practical classes to facilitate active learning. Lecture discuss the module content with an emphasis on the clinical application of anatomical knowledge learning.		This module will be taught in 3 hours theory and 4 hours of practical per week. Students may access the material via Blackboard in advance of theory and practical classes to facilitate active learning. Lectures will discuss the module content with an emphasis on the clinical application of anatomical knowledge learnt and practiced in practical class. Practical classes will incorporate identification, description, palpation and the functional workings of the relevant anatomical structures of the upper limb, neck and head.	
Module Aim	:		To provide the student with an understanding of the anatomical structures of the upper limb, neck and head.	
Learning Ou	itcomes			
On successf	ul completic	on of th	his module the learner should be able to:	
LO1	Identify the	e relev	natomy of the upper limb, neck and head.	
LO2	Describe t	the rel	ant anatomy of the upper limb, neck and head.	
LO3	Palpate relevant anatomical structures of the upper limb, neck and head.			
Pre-requisit	e learning			
Module Rec This is prior l			ctical skill) that is recommended before enrolment in this module.	
No recomme	ndations lis	ted		
Incompatibl These are m		ch hav	e learning outcomes that are too similar to the learning outcomes of this module.	
No incompat	ible module	s liste	d	
Co-requisite	Modules			
No Co-requis	site modules	s listed	1	
Requiremen This is prior l		a prac	ctical skill) that is mandatory before enrolment in this module is allowed.	
No requirem	ents listed			

ZSCI C1102: Anatomy 1

Module Content & Assessment

Indicative Content

Theory

An introduction to anatomy and its terminology. The anatomy of the upper limb, neck and head will be discussed under the following headings; 1. Osteology 2. Athrology 3. Myology 4. Neurology 5. Angiology

Practical

Students will learn to identify, describe and palpate relevant anatomical structures of the upper limb, neck and head.

Assessment Breakdown %	
Continuous Assessment	30.00%
Practical	70.00%

Special Regulation

Learners must achieve a minimum of 35% in both the CA and practical components.

Continuous Assessr	ous Assessment			
Assessment Type	Assessment Description	Outcome addressed	% of total	Assessment Date
Multiple Choice Questions	Continuous assessments in MCQ format will be scheduled throughout semester worth a total of 30%	1,2	30.00	n/a

No Project

Practical				
Assessment Type	Assessment Description	Outcome addressed	% of total	Assessment Date
Practical/Skills Evaluation	2 practicals worth 20% and 50% respectively, will constitute the 70% practical mark. Students will be required to identify, describe and palpate relevant anatomical structures of the upper limb, neck and head.	1,2,3	70.00	n/a

No End of Module Formal Examination

SETU Carlow Campus reserves the right to alter the nature and timings of assessment

ZSCI C1102: Anatomy 1

Module Workload

Workload: Full Time		
Workload Type	Frequency	Average Weekly Learner Workload
Lecture	12 Weeks per Stage	3.00
Practicals	12 Weeks per Stage	4.00
Independent Learning	15 Weeks per Stage	2.73
	Total Hours	125.00

Module Delivered In				
Programme Code	Programme	Semester	Delivery	
CW_SASRA_B	Bachelor of Science (Honours) in Sports Rehabilitation and Athletic Therapy	1	Mandatory	
CW_SAPHS_C	Higher Certificate in Science in Physiology and Health Science	1	Mandatory
