

Module Title:	Fund Accounting
Language of Instruction:	English
Credits:	10
NFQ Level:	7
Module Delivered In	No Programmes
Teaching & Learning Strategies:	Formal lectures, group-based activities, class discussion and case studies will cover the material and its practical application. The continuous assessment will take the form of exams and research.
Module Aim:	This module introduces students to the fund accounting industry. It provides the students with an understanding of the key requirements of the transfer agent and the types of transactions handled by a mutual fund accountant accounting including the daily determination of the Net Asset Value (NAV).

Learning Outcomes	
<i>On successful completion of this module the learner should be able to:</i>	
LO1	Outline the functions and responsibilities of all parties to a fund.
LO2	Apply accounting entries to reflect all subscriptions, redemptions, distributions and fees with resulting changes to the Net Asset Value and shareholders' equity.
LO3	Account for trades in fixed income securities, money markets and equities.
LO4	Show an understanding of how the fund industry operates, the players involved and current issues affecting the fund industry.
LO5	Demonstrate an understanding of regulatory and compliance issues in relation to the operation of a mutual fund within the Irish context including data protection and money laundering legislation.
LO6	Be familiar with and be able to account for the fund dealing requirements for various share types.
