

# DEVL C4313: Enterprise Development I

Module Title:		Enterprise Development I				
Language of Instruction:		English				
Credits: 5						
NFQ Level:	NFQ Level: 8					
Module Deli	vered In	4 programme(s)				
Teaching & Learning Strategies:		The learning outcomes detailed below will be achieved through the following teaching methodologies: Lectures - communication of knowledge and ideas from the lecturer to the student. Problem Solving Exercises – students and will work together to create solutions to small business issues. Group work - Creativity techniques workshops will be used to develop creative ideas to identify business opportunities, which will then be researched, presented, analysed and justified. Case Studies – cases will be used to investigate small business issues and to develop students critical thinking skills Class Discussion/Debate - Students will be encouraged to actively participate in the class sessions which will develop their analytical and communication skills. E-Learning – It is envisaged that the module will be supported with on-line learning materials. Self-Directed Independent Learning – the emphasis on independent learning should develop strong and autonomous work and learning practices.				
Module Aim:		The aim of this module is to equip students with the ability to assess the nature of enterprise, its importance to the economy, its role in relation to innovation and its relevance in relation to career and lifestyle choice. It also aims to give the student the ability to assess the entrepreneurial personality, the creative & innovation processes and the need for industrial policy to create the necessary environment and support infrastructure for entrepreneurial activity. Furthermore, it challenges students to engage with small business issues and problems.
