

Module Title:	Corporate Finance in Accounting
Language of Instruction:	English
Credits:	5
NFQ Level:	7
Module Delivered In	2 programme(s)
Teaching & Learning Strategies:	Lectures - Communication of knowledge and ideas from the lecturer to the student. Problem Solving Exercises - Student will work as part of a team and will work together to resolve various business scenarios. Class Discussion/Debate - Students will be encouraged to actively participate in the class sessions which will develop their analytical and communication skills. E-Learning - It is envisaged that the module will be supported with on-line learning materials. Self-Direct Independent Learning - The emphasis on independent learning will develop strong and autonomous work and learning practices.
Module Aim:	The aim of this module is to provide an introduction to corporate finance through the development of theoretical and practical skills and knowledge in relation to the role and purpose of the finance function, the management of working capital, the role of financial markets and institutions and the evaluation of alternative sources of business finance. The depth and breadth of the module content and assessment are designed to gain maximum exemptions from professional accounting bodies, appropriate to the B.A. (Honours) in Accounting programme.
Learning Outcomes	
<i>On successful completion of this module the learner should be able to:</i>	
LO1	Define and explain the key terms, concepts, theories and practices associated with: The finance function, optimising the use of working capital; the role of financial markets and institutions; and financing business operations.
LO2	Identify and apply relevant corporate finance techniques when presented with defined and undefined practical business problems.
LO3	Analyse, prepare and evaluate results within a corporate finance framework and present recommendations.
