

<b>Module Title:</b>	Project (Cybercrime)
<b>Credits:</b>	30
<b>NFQ Level:</b>	7
<b>Module Delivered In</b>	<a href="#">2 programme(s)</a>
<b>Teaching &amp; Learning Strategies:</b>	Learners are expected to work independently on their project. Weekly meetings with their project supervisor provide general guidance, advice and encouragement throughout the project life-cycle. A project diary (reflective journal) is maintained by the learner and must be signed by the project supervisor on a weekly basis. The project presentation provides the learner with valuable experience of presenting their work within a public setting. The project is scheduled to run as twelve weeks, full-time, block at the end of the course's academic year. In addition, a number of project preparations lectures are delivered prior to the module start to educate the student as to what is required of them in this module.
<b>Module Aim:</b>	To provide the learner with the experience of working on a real-world, realistically sized project, which uses, in a practical and tangible way, the knowledge and skills covered in the other course modules.

Learning Outcomes	
<i>On successful completion of this module the learner should be able to:</i>	
LO1	Work to a deadline and gain general time management;
LO2	Appreciate the importance of advanced planning as it relates to project management;.
LO3	Conduct research into appropriate technology choices
LO4	Produce professional quality documents describing their work.
LO5	Confidently present and discuss their work within a public presentation and demonstration setting
LO6	Design and implement a fully functioning system for a cybersecurity use case.

Pre-requisite learning
<b>Module Recommendations</b> <i>This is prior learning (or a practical skill) that is recommended before enrolment in this module.</i>
No recommendations listed
<b>Incompatible Modules</b> <i>These are modules which have learning outcomes that are too similar to the learning outcomes of this module.</i>
No incompatible modules listed
<b>Co-requisite Modules</b>
No Co-requisite modules listed
<b>Requirements</b> <i>This is prior learning (or a practical skill) that is mandatory before enrolment in this module is allowed.</i>
No requirements listed

## Module Content & Assessment

### Indicative Content

#### Content

Learners are required to develop a fully functional system, with professional document in consultation with their assigned project supervisor. The system must contain a significant amount of personal implementation.

### Assessment Breakdown

	%
Project	100.00%

No Continuous Assessment

### Project

Assessment Type	Assessment Description	Outcome addressed	% of total	Assessment Date
Project	Examples of deliverables include: • LO3, LO4 : Research Report • LO4 : Project Specification Document; • LO5 : Progress-to-Date Presentation; • LO1, LO2, LO6 : Project implementation and LO1, LO2, LO4 : ; annotated and signed Project Diary.	1,2,3,4,5,6	100.00	Sem 1 End
