

<b>Module Title:</b>	Emerging Technologies for IT Managers
<b>Language of Instruction:</b>	English
<b>Credits:</b>	5
<b>NFQ Level:</b>	8
<b>Module Delivered In</b>	<a href="#">1 programme(s)</a>
<b>Teaching &amp; Learning Strategies:</b>	All topics will be delivered by means of interactive lectures. Students will also undertake research activities to gain an understanding of current practices in the industry.
<b>Module Aim:</b>	To provide the student with a knowledge of cutting edge uses of IT technologies and the implications for IT managers. To enable the student to assess the possibilities for the future of I.T. and the likely impact on individuals and organisations.
<b>Learning Outcomes</b>	
<i>On successful completion of this module the learner should be able to:</i>	
LO1	Demonstrate an awareness and understanding of ongoing developments in information technology
LO2	Assess the likely impact of these developments on individuals and organisations
LO3	Identify and evaluate implications for business strategy and IS/IT strategies that emerging information technologies present.
<b>Pre-requisite learning</b>	
<b>Module Recommendations</b> <i>This is prior learning (or a practical skill) that is recommended before enrolment in this module.</i>	
No recommendations listed	
<b>Incompatible Modules</b> <i>These are modules which have learning outcomes that are too similar to the learning outcomes of this module.</i>	
No incompatible modules listed	
<b>Co-requisite Modules</b>	
No Co-requisite modules listed	
<b>Requirements</b> <i>This is prior learning (or a practical skill) that is mandatory before enrolment in this module is allowed.</i>	
No requirements listed	

## Module Content & Assessment

<b>Indicative Content</b>
<b>Digital convergence and evolution</b> The evolution of digital technologies and uses
<b>Digital Communications</b> Current and emerging communication technologies
