

# SCIE C1101: Pharmaceutical Calculations and Computing

University						
Module Title:		Pharmaceutical Calculations and Computing				
Language of Instruction:		: English				
Credits: 5		5				
NFQ Level:	(6	6				
Module Deli	vered In	1 programme(s)				
Teaching & Learning Strategies:		This module will be taught in two theory class and two computer lab practicals, each of one hour duration, per week. Relevant examples, notes and problem sheets will be available on Blackboard which students will complete to re-enforce learning. Delivery of the computing module will involve individual and group practical exercises.				
Module Aim:		The aim of this module is to give students a thorough grounding in the mathematics required for the successful understanding and solution of pharmaceutical calculation problems and to provide them with the information communications technology skills required for the college and pharmacy environments.				
Learning Ou	utcomes					
On successf	ul completion	of this module the learner should be able to:				
LO1	Solve nume	erical problems related to science, health and pharmacy business operations.				
LO2	Solve a ran	ge of pharmaceutical calculation problems.				
LO3	Use informa	ation communications technologies.				
Pre-requisit	Pre-requisite learning					
Module Recommendations This is prior learning (or a practical skill) that is recommended before enrolment in this module.						
No recomme	No recommendations listed					
	Incompatible Modules These are modules which have learning outcomes that are too similar to the learning outcomes of this module.					
No incompat	No incompatible modules listed					
Co-requisite	Co-requisite Modules					
No Co-requis	No Co-requisite modules listed					

Requirements
This is prior learning (or a practical skill) that is mandatory before enrolment in this module is allowed.

No requirements listed

## **SCIE C1101: Pharmaceutical Calculations and Computing**

## **Module Content & Assessment**

## **Indicative Content**

### Numeracy for Healthcare and Pharmacy Operation.

Number systems. Quantity calculations in pharmacy. Data, vaccine management and business calculations.

Exponents, logarithms and pH calculations. Scientific notation and significant figures. Accuracy and Error.

**Measurement in pharmacy**Metric, imperial and household measurement systems. Conversions – intersystem, intrasystem and temperature. Ratio and proportion.

Percent Strength Calculations
Ratio and Percent Strength, Dilutions and Alligations.

### **Dosage Calculations**

Oral, Parenteral, Paediatric and BSA dosage calculations.

Computer based mathematics support. Information & communications technology: ICT theory, referencing and software applications. Team presentations on a calculation/technology based topic related to pharmacy/healthcare.

Assessment Breakdown	%
Continuous Assessment	30.00%
Practical	20.00%
End of Module Formal Examination	50.00%

## **Special Regulation**

Students must achieve a minimum grade (35%) in both the practical and final exam components of the course and a minimum of 60% in the CA component.

Continuous Assessment					
Assessment Type	Assessment Description	Outcome addressed	% of total	Assessment Date	
Examination	In-class assessments	1,2	30.00	n/a	

No Project

Practical					
Assessment Type	Assessment Description	Outcome addressed	% of total	Assessment Date	
Practical/Skills Evaluation	Practical exercises, team project work and presentations.	1,3	20.00	n/a	

End of Module Formal Examination					
Assessment Type	Assessment Description	Outcome addressed	% of total	Assessment Date	
Formal Exam	Two hour exam	1,2	50.00	End-of-Semester	

SETU Carlow Campus reserves the right to alter the nature and timings of assessment

## Module Workload

Workload: Full Time				
Workload Type	Frequency	Average Weekly Learner Workload		
Lecture	12 Weeks per Stage	2.00		
Practicals	12 Weeks per Stage	2.00		
Estimated Learner Hours	15 Weeks per Stage	5.13		
	Total Hours	125.00		

## Module Delivered In

Programme Code	Programme	Semester	Delivery
CW_SAPHA_C	Higher Certificate in Science in Pharmacy Technician Studies	1	Mandatory
