

# VIDE H3601: Cinematography and Post Production

Module Tit	le:		Cinematography and Post Production
Language	of Instructio	n:	English
Credits:		10	
NFQ Level:		7	
			-
Module De	livered In		2 programme(s)
Teaching 8 Strategies:		There will be a combination of tutorials, demonstrations, screenings, practical workshops, production exercises and group discussion/critiques. Students will enhance their skills through theoretical lecture project based learning, and analysis of their practical work. There will be a stronger focus on visual storytelling and the conceptual methods involved in cinematography.	
Module Air	n:		An advancement of the skills and knowledge acquired in Single Camera Video Production, this module will develop the students understanding of cinematography. In post production, students technical abilities and capacity to visualise and construct narratives in the edit room will be enhanced. Abilities in preproduction will be advanced through group work on projects.
Learning O	utcomes		
On success	ful completio	on of th	his module the learner should be able to:
LO1	Advanced work in th	skills e crea	in cinematography, audio production, and post production, as demonstrated through both individual and team tion of higher quality video productions.
LO2			derstand deeper concepts regarding the thought processes behind cinematography and then critically assess ons based on these theories.
LO3			onnaissance work, risk assessments, and map out locations with a view to develop a shooting, lighting, and will best suit the production at hand.
LO4	Ability to e graphics.	edit tog	gether a coherent production that includes extra media from different sources such as still images and
LO5			te their own media roles and skills in the wider context of production via personal evaluation, project id screenings.
Pre-requisi	te learning		
	<b>commendat</b> learning (or		ctical skill) that is recommended before enrolment in this module.
No recomm	endations lis	ted	
	ne Modules	:h hav	e learning outcomes that are too similar to the learning outcomes of this module.
No incompa	tible module	s liste	d
Co-requisit	te Modules		
No Co-requ	isite module:	s listed	1
<b>Requireme</b> This is prior		a prac	ctical skill) that is mandatory before enrolment in this module is allowed.
No requiren	nents listed		

## VIDE H3601: Cinematography and Post Production

## **Module Content & Assessment**

## Indicative Content

#### Cinemtography

Building on the skills learned in Single Camera Video Production this module will delve deeper into the concepts and theories that deal separates cinematography from standard camera operation.

#### Postproduction

This is an advancement of the technical skills and knowhow regarding editing software. The students will get a greater understanding of what it is to build a specific sequence of shots to convey a certain meaning to the audience.

#### Pre-production

Productions will be shot off-campus with outsourced actors, meaning there will be a strong need for higher pre-production skills. Locations need to be secured, talent screen tested, risk assessments completed etc.

#### Audio Production

An advanced ability to record dialogue, atmospheric audio, and foley in order to mix together a more professional soundscape.

#### **Critical Evaluation**

Students cognitively learn from assessing their productions and their role within through reflective, critical analysis. Learning outcomes must be discussed and an awareness of what should be done in future will be flagged by students.

Assessment Breakdown	%
Continuous Assessment	10.00%
Project	60.00%
Practical	30.00%

Continuous As	sessment			
Assessment Type	Assessment Description	Outcome addressed	% of total	Assessment Date
Short Answer Questions	Students may be asked to do a short answer assessment, or deliver a presentation, relating to the theory covered in class that relates to cinematography.	1,4	10.00	n/a
Project	In order to demonstrate advanced proficiency with camera equipment and editing software, students will be required to shoot and edit a video within a given amount of time. Abilities with regard to application of practical skills will be monitored and graded accordingly.	1,3,4	30.00	n/a

Assessment	Assessment Description	Outcome	% of	Assessment
Type		addressed	total	Date
Project	Groups will be required to produce video content for a specified audience that display various skills in cinematography and post production. Abilities in preproduction will be advanced and a production folder will be submitted containing all the relevant paperwork. They will also learn through reflective critical evaluation of their own role and the production as a whole. As directed by the lecturer, the students may submit this as paperwork or deliver it in presentation format.	1,2,3,4,5	60.00	n/a

No Practical

No End of Module Formal Examination

SETU Carlow Campus reserves the right to alter the nature and timings of assessment
