

|  |   |
|--|---|
| <b>Module Title:</b>                       | Business Mathematics  |
| <b>Language of Instruction:</b>            | English   |
| <b>Credits:</b>                            | 10  |
| <b>NFQ Level:</b>                          | 6   |
| <b>Module Delivered In</b>                 | No Programmes   |
| <b>Teaching &amp; Learning Strategies:</b> | Classes will be practical in focus, using example questions to illustrate key points and theories. Students will be expected to complete work-sheets in their independent learning time to re-enforce understanding of key issues |
| <b>Module Aim:</b>                         | To give a thorough grounding in the mathematics required for the successful understanding and solution of business problems.  |

| Learning Outcomes   |  |
|---|--|
| <i>On successful completion of this module the learner should be able to:</i> |  |
| LO1   | Apply mathematical skills to solve numerical problems in the area of business  |
| LO2   | Solve mathematical problems and manipulate formula, as appropriate   |
| LO3   | Appraise capital investment projects on the basis of Net Present Value and Internal Rate of Return   |
| LO4   | Apply statistical skills to solve business problems and model, analyse, interpret and present business data, using the principles of statistics. |
| LO5   | Display key data in structured business scenarios, create graphs, tables and charts to highlight relevant numerical business information         |

| Pre-requisite learning   |
|--|
| <b>Module Recommendations</b><br><i>This is prior learning (or a practical skill) that is recommended before enrolment in this module.</i>         |
| No recommendations listed  |
| <b>Incompatible Modules</b><br><i>These are modules which have learning outcomes that are too similar to the learning outcomes of this module.</i> |
| No incompatible modules listed   |
| <b>Co-requisite Modules</b>  |
| No Co-requisite modules listed   |
| <b>Requirements</b><br><i>This is prior learning (or a practical skill) that is mandatory before enrolment in this module is allowed.</i>          |
| No requirements listed   |

**Module Content & Assessment**

| Indicative Content   |
|--|
| <b>Mathematics of Finance</b><br>• Simple and compound interest • Present and Future Value • Discounting • Arithmetic series and their application to regular investments • Annuities and their Present Value • Straight line and reducing balance methods of depreciation |
| <b>Capital Investment Appraisal</b><br>• Net Present Value of investments • Internal Rate of Return • Straight line and reducing balance methods of depreciation   |
| <b>Equations</b><br>• Linear and quadratic equations and their graphs • Solving simultaneous equations • Simultaneous inequalities • Graphing inequalities • Graphical solution of Linear Programming problems   |
| <b>Calculus</b><br>• Differentiation and Applications/Rules of Differentiation • Maximum and Minimum points • Graphing Economic Functions • Business Applications: • Marginal Cost, Marginal Revenue, Profit Maximisation  |
| <b>Probability</b><br>• Introduction to probability • Normal Distribution  |
| <b>Statistics</b><br>• Introduction • Purpose of Statistics  |
| <b>Measures of Central Tendency and Dispersion</b><br>• Mean, Mode and Median • Standard Deviation, Range • Coefficient of Variation • Application and Interpretation in Quality Control   |
| <b>Correlation and Regression</b><br>Correlation and Regression  |
| <b>Time Series and Forecasting</b><br>Time Series and Forecasting  |
| <b>Index Numbers</b><br>Index Numbers  |

| Assessment Breakdown             | %      |
|----------------------------------|--------|
| Continuous Assessment            | 40.00% |
| End of Module Formal Examination | 60.00% |

| Continuous Assessment  |  |                   |            |                 |
|------------------------|--|-------------------|------------|-----------------|
| Assessment Type        | Assessment Description   | Outcome addressed | % of total | Assessment Date |
| Short Answer Questions | Class Test: Short questions to reinforce learning                      | 1,2,3             | 10.00      | n/a             |
| Examination            | Class Test: Class test to reinforce learning                           | 1,2,3             | 10.00      | n/a             |
| Other                  | Assignment: Application of business mathematics to real-life situation | 4,5               | 20.00      | n/a             |

No Project

No Practical

| End of Module Formal Examination |                               |                   |            |                 |
|----------------------------------|-------------------------------|-------------------|------------|-----------------|
| Assessment Type                  | Assessment Description        | Outcome addressed | % of total | Assessment Date |
| Formal Exam                      | Final Exam: Final end of year | 1,2,3,5           | 60.00      | End-of-Semester |

SETU Carlow Campus reserves the right to alter the nature and timings of assessment

**Module Workload**

| <b>Workload: Full Time</b> |                    |  |
|----------------------------|--------------------|--|
| <i>Workload Type</i>       | <i>Frequency</i>   | <i>Average Weekly Learner Workload</i> |
| Lecture                    | 30 Weeks per Stage | 3.00                                   |
| Independent Learning       | 30 Weeks per Stage | 3.67                                   |
| Total Hours                |                    | 200.00                                 |
