Successful completion of year 3 or equivalent

PHIO H4126: Current Concepts in Sport Science

		XX	University		
Module Title:			Current Concepts in Sport Science		
Language of Instruction:		n:	English		
Credits:		5			
NFQ Level: 8		8			
Module Delivered In			No Programmes		
Teaching & Learning Strategies:			This module will be delivered in one hour lecture and one hour practical per week for one term and will be based around group work on self selected topics. Course lecture summaries, course calendar, announcements and other course-related material will be available on Blackboard, a virtual learning environment. Students can liaise with the lecturer to discuss research methods, data collection, PowerPoint Presentation, and group project work.		
Module Aim:			To develop the student's ability to investigate, review, synthesise and present information on current issue in the sports sciences		
Learning C	Outcomes				
On success	sful completio	on of th	his module the learner should be able to:		
LO1	Communicate sports specific information and / or ideas effectively using written, visual, oral and practical methods of communication		ports specific information and / or ideas effectively using written, visual, oral and practical methods of		
LO2	Demonstrate an ability to review relevant sports and exercise literature, take research data and presentation		ability to review relevant sports and exercise literature, take research data and integrate it into a structured		
LO3	Contribute	Contribute as an effective team member to the successful completion of a group project on a sports-based scientific topic			
Pre-requis	ite learning				
	commendat r learning (or		ctical skill) that is recommended before enrolment in this module.		
No recomm	nendations lis	ted			
	ble Modules modules whic	ch hav	re learning outcomes that are too similar to the learning outcomes of this module.		
No incompa	No incompatible modules listed				
Co-requisi	te Modules				

RequirementsThis is prior learning (or a practical skill) that is mandatory before enrolment in this module is allowed.

PHIO H4126: Current Concepts in Sport Science

Module Content & Assessment

Indicative Content

Specific content will be determined by the research topics in sports and may include areas such as women in sport, nutrition, sport and health, sport and medical conditions, sports technology, long term player/athlete pathway etc. Guidelines for conducting a successful literature review Guidelines for effective communication including critical review of scientific writing, creation of PowerPoint presentations, preparation of oral, written, and practical presentations. Analysis of numerical data using graphs, charts, tables and basic statistics in sports science Advantages and disadvantages of group project based learning

Assessment Breakdown	%
Continuous Assessment	100.00%

Continuous Assessment					
Assessment Type	Assessment Description	Outcome addressed	% of total	Assessment Date	
Presentation	Group Presentation: Topic 1 will be researched by a group who will then present an audio-visual based report, and an accompanying practical demonstration/investigation	1,2,3	30.00	Week 4	
Presentation	Group Presentation (3 people max per group): Topic 2 will be researched by a smaller group, and will be presented through audio-visual means	1,2,3	50.00	Every Week	
Other	Attendance and contribution	3	20.00	n/a	

No Project

No Practical

No End of Module Formal Examination
