| Module Title: | Strapping & Foot Postural Assessment |
| Language of Instruction: | English |
| Credits: | 5 |
| NFQ Level: | 7 |
| Module Delivered In | No Programmes |
| Teaching & Learning Strategies: | This module will be taught in 2 hour practical per week. The practical class will comprise of demonstration and instruction in the performing and administration of strapping techniques and foot postural assesment. The primary focus however will be on developing students' practical skills in the application and postural assessment |
| Module Aim: | To provide the student with the practical and knowledge in the competent application of strapping techniques to joints and soft tissue injuries. To provide the student with the basic principles in foot postural assessment. |
| Learning Outcomes | |
| <i>On successful completion of this module the learner should be able to:</i> | |
| LO1 | Demonstrate a clear knowledge and the appropriate competent application of strapping techniques to various joint and soft tissues injuries. |
| LO2 | Demonstrate the scientific knowledge and application in foot postural assessment. |
| LO3 | Recognise the most common foot pathomechanical dysfunctions |
| Pre-requisite learning | |
| Module Recommendations | |
| <i>This is prior learning (or a practical skill) that is recommended before enrolment in this module.</i> | |
| No recommendations listed | |
| Incompatible Modules | |
| <i>These are modules which have learning outcomes that are too similar to the learning outcomes of this module.</i> | |
| No incompatible modules listed | |
| Co-requisite Modules | |
| No Co-requisite modules listed | |
| Requirements | |
| <i>This is prior learning (or a practical skill) that is mandatory before enrolment in this module is allowed.</i> | |
| Successful completion of year 2 or equivalent | |

Module Content & Assessment

| Indicative Content |
|---|
| Section A.1 Explanation and appropriate use of different technique and different products. |
| Section A.2 Demonstrate the correct strapping technique depending on the stage of healing. |
| Section A.3 Demonstrate the competent and effective use of strapping with regards pre application, application and post application |
| Section A.4 Demonstrate the competent strapping techniques used for various joint and soft tissue injuries. |
| Section A.9 Demonstrate the correct application for foot postural assessment. |
| Section A.10 Identify foot pathomechanical dysfunction. |

| Assessment Breakdown | % |
|-----------------------|--------|
| Continuous Assessment | 30.00% |
| Practical | 70.00% |

| Continuous Assessment | | | | |
|-----------------------|------------------------|-------------------|------------|-----------------|
| Assessment Type | Assessment Description | Outcome addressed | % of total | Assessment Date |
| Presentation | No Description | 3 | 30.00 | n/a |

No Project

| Practical | | | | |
|-----------------------------|------------------------|-------------------|------------|-----------------|
| Assessment Type | Assessment Description | Outcome addressed | % of total | Assessment Date |
| Practical/Skills Evaluation | Practical exam | 1,2 | 70.00 | Sem 1 End |

No End of Module Formal Examination

SETU Carlow Campus reserves the right to alter the nature and timings of assessment

Module Workload

| Workload: Full Time | | |
|----------------------------|--------------------|--|
| <i>Workload Type</i> | <i>Frequency</i> | <i>Average Weekly Learner Workload</i> |
| Laboratory | 30 Weeks per Stage | 1.00 |
| Estimated Learner Hours | 30 Weeks per Stage | 1.00 |
| Total Hours | | 60.00 |
