

**Requirements**This is prior learning (or a practical skill) that is mandatory before enrolment in this module is allowed.

No Co-requisite modules listed

Successful completion of year 1 or equivalent

# ZPHI H2105: Pathophysiology

University				
Module Title:			Pathophysiology	
Language of Instruction:		n:	English	
Credits: 5		5		
NFQ Level: 6		6		
Module Delivered In			4 programme(s)	
Teaching & Learning Strategies:			This module will be taught in 4 theory classes per week of one-hour duration. The theory classes will include lecture, Q&A, group discussion, and technological support. All programme material, course calendar, announcements and other course-related information will be available on Blackboard, a virtual learning environment. Students can contact the lecturer outside of class hours to discuss course work.	
Module Aim:			The aim of this module is to develop the student's knowledge of the aetiology and preventative measures associated with specific diseases and an understanding of how lifestyle measures may affect the development of these diseases. The student will also be introduced to certain pharmacological and sports related drugs.	
Learning O	utcomes			
On success	ful completion	on of th	his module the learner should be able to:	
LO1	Distinguish between different pathological diseases and be able to analyze the role pharmacology plays for the treatment these conditions.		veen different pathological diseases and be able to analyze the role pharmacology plays for the treatment of s.	
LO2	Discuss and justify the effects of a healthy and active lifestyle in the prevention of disease.		tify the effects of a healthy and active lifestyle in the prevention of disease.	
LO3	Describe how to manage and care for individuals with these diseases as a graduate.		manage and care for individuals with these diseases as a graduate.	
Pre-requisi	te learning			
Module Recommendations This is prior learning (or a practical skill) that is recommended before enrolment in this module.				
No recommendations listed				
Incompatible Modules These are modules which have learning outcomes that are too similar to the learning outcomes of this module.				
No incompatible modules listed

## ZPHI H2105: Pathophysiology

## **Module Content & Assessment**

## **Indicative Content**

### Theory Section 1

Pathology, incidence, signs and symptoms, complications and overview of treatment of thrombosis, embolism and atherosclerosis, Ischaemic Heart Disease, Myocardial infarction, angina pectoris, hypertension

### Theory Section 2

Pathology, incidence, signs and symptoms, complications and overview of treatment of Rheumatoid Arthritis, osteoarthritis, Spondyloarthropathies and osteoporosis

## **Theory Section 3**

Pathology, incidence, signs and symptoms, complications and overview of treatment of Diabetes Mellitus, asthma and chronic obstructive airway disease

### Theory Section 4

The effects of a healthy lifestyle (exercise and dietary) on the above mentioned conditions and the repercussions of a negative lifestyle

### Theory Section 5

No Practical

Other relevant diseases; pathology of pain, effects of immobility, osteoporosis, sexually transmitted diseases, cervical and testicular cancers, psychotic disorders e.g. depression, stress, substance abuse, eating disorders, Corticosteroids and their effects on tissue, any other relevant conditions that may arise. Drug treatment for common medical conditions and the effects of drugs on sport performance.

Assessment Breakdown	%	
Continuous Assessment	100.00%	

Continuous Assessment				
Assessment Type	Assessment Description	Outcome addressed	% of total	Assessment Date
Short Answer Questions	Continuous assessment throughout the module using short answer questions	1,2,3	100.00	Ongoing

No Project		

No End of Module Formal Examination

SETU Carlow Campus reserves the right to alter the nature and timings of assessment
