

<b>Module Title:</b>	Marketing and New Product Innovation
<b>Language of Instruction:</b>	English
<b>Credits:</b>	5
<b>NFQ Level:</b>	8
<b>Module Delivered In</b>	<a href="#">1 programme(s)</a>
<b>Teaching &amp; Learning Strategies:</b>	Learners will be exposed to theory and practice of management and marketing through exposure to and study of academic materials (texts, journals etc.) and industry practice materials (case studies, live case examples, industry reports etc.). Classes will be tutorial in nature where learners will be expected to actively engage with module materials (online & offline), problem solving exercises and participate in class discussion and debate. Learners will be encouraged to self-reflect. Learners will receive formative feedback.
<b>Module Aim:</b>	The aim of this module is to provide the learner with an understanding of the principles and practice of Marketing in the Brewing and Distilling industry. Learners should be able to identify and develop solutions to marketing problems which demonstrate an ability to apply the principles of marketing , that are customer focused, based on sound market analysis and supported by appropriate market research. The module aims to provide learners with an understanding of the growing need for organisations to find innovative responses to the challenges of modern global business and to create the culture and environment that will facilitate the development of creative thinking and innovation.
<b>Learning Outcomes</b>	
<i>On successful completion of this module the learner should be able to:</i>	
LO1	Define the concept of Marketing it's role in the new product development and appraise the strategic importance of creativity and innovation in the brewing and distilling industry
LO2	Utilise market research techniques to support new product development and marketing mix strategies that are customer focused.
LO3	Apply segmentation, targeting and positioning strategy in the the brewing and distilling industry
LO4	Formulate and present a Marketing Strategy
