

# SYST C4604: Power Electronics & Electrical Systems

Module Title:			Power Electronics & Electrical Systems		
Language of Instruction:		:	English		
Credits:		5			
NFQ Level:	8	8			
Module Deli	vered In		1 programme(s)		
Teaching & Learning Strategies:			A combination of lectures, class discussions, tutorials, laboratory exercises and demonstrations will be used. Emphasis will be placed on active learning including problem / project-based learning.		
Module Aim:			To understand the generation, control, distribution, and consumption of electrical power within an industrial environment. Understand the hazards and safety procedures associated with electrical systems.		
Learning Ou	itcomes				
On successf	ul completion	of th	nis module the learner should be able to:		
LO1	1 Analyse how electrical power is generated and consumed.				
LO2	LO2 Plan the regulation and distribution of electrical power in industrial environments.				
LO3	LO3 Analyse, model, and simulate electrical systems in software.				
LO4	O4 Assess the hazards and safety systems associated with electrical systems.				
Pre-requisite learning					
Module Recommendations This is prior learning (or a practical skill) that is recommended before enrolment in this module.					
No recommendations listed					
<i>Incompatible Modules</i> These are modules which have learning outcomes that are too similar to the learning outcomes of this module.					
No incompatible modules listed					
Co-requisite Modules					
No Co-requisite modules listed					
<b>Requirements</b> This is prior learning (or a practical skill) that is mandatory before enrolment in this module is allowed.					

No requirements listed

### SYST C4604: Power Electronics & Electrical Systems

## **Module Content & Assessment**

## Indicative Content

#### **Electrical Power Systems**

Single-phase and three-phase generation and distribution. AC generators, DC generators, transformers, rectifiers, and inverters. Electrical schematics and symbols.

#### Sensors and Switches

Proximity switches, photoelectric switches, photoelectric switches, limit switches, level switches, flow-switches, Temperature, and pressure switches. Relays, power relays, general-purpose relays, latching relays, solid-state relays. Electric contact classification.

#### Motors and Actuators

AC motors, DC motors, synchronous, inductions and stepper motors. Motor constructions and operations. Motor control and factors affecting motor output power, torque, speed and direction of rotation. Linear actuators.

#### Safety Systems

Dangers and hazards associated with high voltage lines and equipment. Principle of operation of circuit breakers. MCB rating and trip characteristics. Fuse types and ratings, RCD and RCBO principles. Emergency stops and Lock-out systems.

Assessment Breakdown	%
Continuous Assessment	20.00%
Practical	20.00%
End of Module Formal Examination	60.00%

Continuous Assessment					
Assessment Type	Assessment Description	Outcome addressed	% of total	Assessment Date	
Examination	A mixture of theory and/or practical assessments to reinforce learning throughout the semester.	1,2,4	20.00	n/a	

No Project

Practical					
Assessment Type	Assessment Description	Outcome addressed	% of total	Assessment Date	
Practical/Skills Evaluation	A series of practical exercises and tasks to complement the theory elements of the module.	3,4	20.00	n/a	

End of Module Formal Examination					
	Assessment Type	Assessment Description	Outcome addressed	% of total	Assessment Date
	Formal Exam	Final Examination	1,2,4	60.00	End-of-Semester

SETU Carlow Campus reserves the right to alter the nature and timings of assessment

## SYST C4604: Power Electronics & Electrical Systems

# Module Workload

Workload: Full Time				
Workload Type	Frequency	Average Weekly Learner Workload		
Lecture	Every Week	3.00		
Laboratory	Every Week	2.00		
Independent Learning Time	Every Week	2.00		
	Total Hours	7.00		

Module Delivered In					
Programme Code	Programme	Semester	Delivery		
CW_EEROB_B	Bachelor of Engineering (Honours) in Robotics and Automated Systems	8	Mandatory
